Use permeable pavers to design stylish flooring for outdoor shower drains or water features.

DESIGN TIP

THE BENEFITS OF PERMEABLE PAVERS

Our selection of permeable pavers combines strength, functionality & aesthetics to provide an alternative solution for stormwater management in a variety of applications.

WATER HARVESTING

Reduce water demand for landscaping by designing a permeable paver system that harvests and recycles rainwater.

ELIMINATE STANDING WATER

Improve site drainage to avoid pooling water where mosquitos can breed.

REPLENISH AQUIFERS

Permeable pavers filter water, removing contaminants and ensuring receiving waters and ecosystems are self-sustaining.

MANAGE RUNOFF

Aid landscaping by reducing erosion that occurs when grass is dry or dead.

FLOOD PREVENTION

Permeable pavers can absorb rainwater at a rate of over 500 inches per hour, eliminating runoff.

PERMEABLE JOINT INFILL OPTIONS

Work with your local Belgard sales representative to design the ideal permeable pavement system to suit both your aesthetic and water management needs. When using non-traditional permeable joint materials, changes to the paver installation will be required.

EXCLUSIVE PAVER TECHNOLOGY FOR

LIMITLESS DESIGN POSSIBILITIES

Belgard's modular paver lines were created to save time on design and installation. Available in many styles, shapes, sizes and textures, these pavers are designed to work together seamlessly to create a limitless number of patterns.

INCREASED CREATIVITY

Create bold geometric patterns, add a fun border, incorporate a faux paver rug, or visually divide your space into separate entertainment zones.

EFFICIENT INSTALLATION

With common nominal sizing, even intricate mix-and-match patterns can be quickly installed with fewer paver cuts. This means you get the look you want with less installation time and less waste.

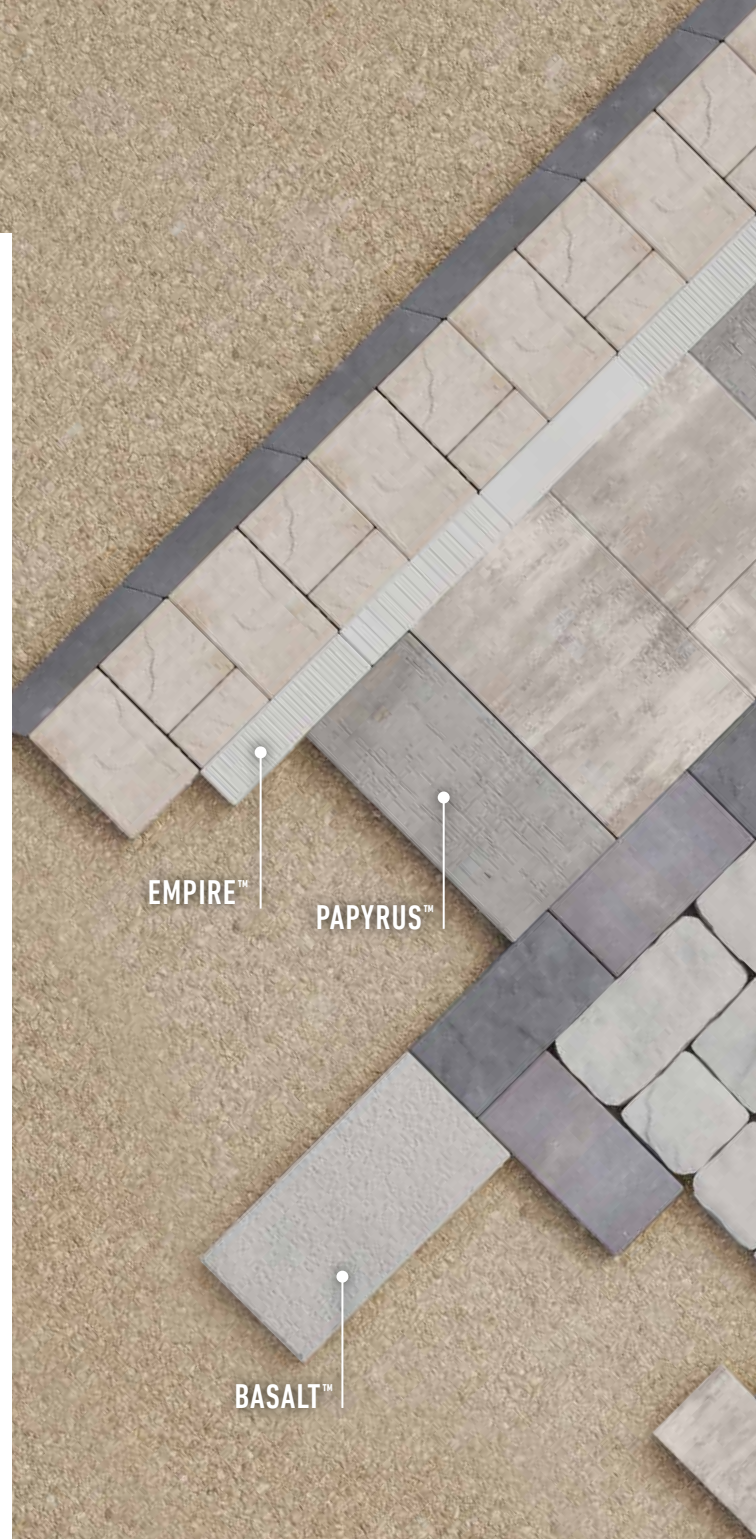

EXCLUSIVE MIX & MATCH TECHNOLOGY

Belgard is the only paver producer with multiple styles in identical nominal sizing. Mix colors. Mix textures. Mix shapes. It all fits together to create truly unique designs.

BUDGET CONSIDERATIONS

Construction projects rarely proceed exactly as initially designed and quoted. Unforeseen complications and decisions during construction can affect costs, which vary based on site conditions, project size, finishes, and more. Pavers and wall products may only account for 20% of the total cost. Choose products you'll enjoy long-term without compromising.

**Depending on site conditions, design decisions and overall scope.*

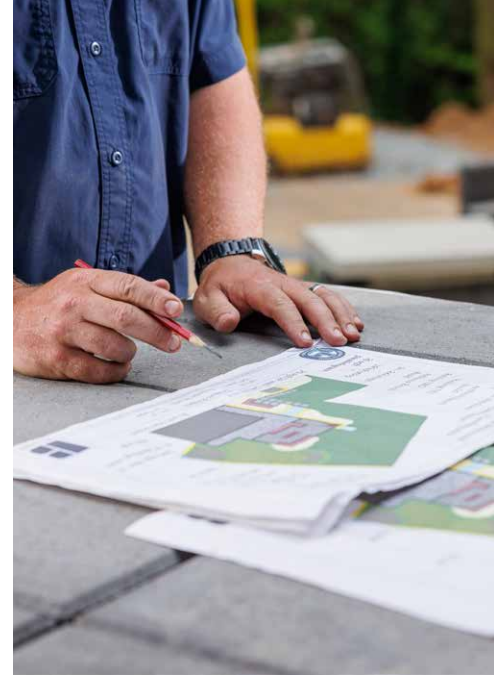

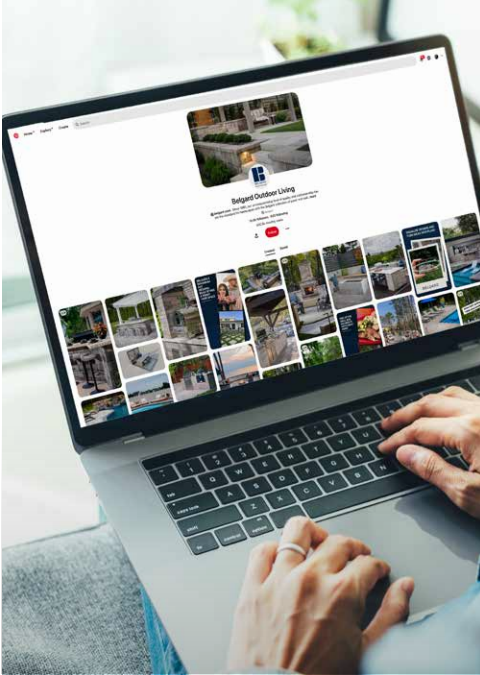

CUSTOMIZING YOUR SPACE

Expanding the project footprint or adding features can raise costs but also significantly boost functionality and enjoyment. Popular upgrades include shade, lighting, fire features, and cooking areas. Work with your contractor to optimize your space within budget, explore financing options, or plan phased construction over time.

START YOUR PROJECT TODAY
